WORK

CURRENT EMPLOYMENT:

MINTED.COM

ASSOCIATE PRODUCT MANAGER/PRODUCT MANAGER/SR. PRODUCT MANAGER
February 2012 - current

Work with engineering teams and UI/UX designers to design and develop new products and features. Developed a reputation for solving difficult problems and redesigning workflows to improve efficiency.

NOTABLE PROJECTS

- **Financial Reporting/ERP System implementation**
Took over a delayed, partially completed ERP project, reworked requirements with stakeholders and shepherded the project to an on-time launch.

- **Renderer replatform**
Worked with 3rd party to develop conversion software plug-in and integrate into product launch processes. Co-Managed the conversion of entire product catalog to new platform.

- **Image pipeline rebuild**
Designed and led implementation of image processing pipeline for generating millions of product images quickly and reliably.

- **Customizable product launch process rebuild**
Automated and simplified offline, manual processes and consolidated work into single web-based interface.

PRODUCTION TEAM MANAGER
March 2012 - February 2013

Managed a team of between 9-14 employees, worked to improve workflows and launch products on schedule.

LEAD PRODUCTION ASSOCIATE/PRODUCTION ASSOCIATE
January 2011 - February 2012

Troubleshoot issues, develop process improvements, create training materials and train new hires. Used Adobe CS software to design customizable templates for publishing on the web.

DESIGN ASSOCIATE
November 2009 - December 2009, August 2010 - December 2010

Used Adobe CS software to customize templates with customer information, (type-setting, photo editing, etc.), prep for print.
